WORK EXPERIENCE

Fisher & Paykel Technologies *Auckland, NZ*
AI & DATA ANALYTICS INTERN *Nov 2019 - Feb 2020*
- Preprocessed and imputed data in R
- Performed feature extraction using random forests, Boruta, XGBoost on large datasets
- Implemented *Keras* deep neural networks to predict out of balance in washing machines

National Tsing Hua University *Hsinchu, Taiwan*
POSTGRADUATE AI RESEARCHER *Nov 2018 - Jan 2019*
- Implemented deep reinforcement learning for efficient screwing with robotic arms
- Trained a deep Q-learning agent using PyTorch and simulated in V-REP environment
- Implemented server-synchronous API between Python and V-REP
- Automated data processing and visualisation with Excel VBA

PROJECTS & EXTRACURRICULAR

CreateBase *Auckland, NZ*
CO-FOUNDER & DESIGNER *Dec 2019 - Current*
- CreateBase is a startup that builds engaging STEM tools and contents for students
- Designing and implementing website front-end
- Collaborating with educational institutes to make active learning more accessible

Kessler *Auckland, NZ*
TETHER OPERATIONS CREWMEMBER *Aug 2018 - Current*
- Kessler is a student-run project that is launching a 1U CubeSat into space to verify the feasibility of electrodynamic tethers as a means of rapid deorbiting
- Wrote MATLAB code to calculate power budget based on GMAT orbital simulations
- Calculated accelerometer precision based on hardware specifications, atmospheric drag, and plasma density in low Earth orbit
- Created the Orbital Debris Mitigation Plan (ODMP) for the mission

United Nations Youth *Auckland, NZ*
COMMITTEE MEMBER & DELEGATE *Apr 2016 - Sep 2019*
- 2019 - Raise Your Voice Education Officer
- 2018 - Auckland Model UN Education Officer
